

Wild Reindeer Husky Safari

This safari takes you through the remote region of Northern Karelia along the Russian border where wild reindeer can be found. A wonderful adventure using the best huskies I have come across in Scandinavia.

Using the simple but comfortable base of a wilderness centre, after training, you take a three day trip out to the unique Domna House (timber framed house faithfully restored to its original construction in the 1960s) or nearby 'Louhi Cottage' This is a good trip for those not so sure of how they will get on with a team of enthusiastic dogs. The very small groups on these adventures enables the guides to adapt each day trip to your wishes and enthusiasm.
